

*Masjid Muslimin Islamic Center of Columbia
in partnership with Palmetto Health presents*

Because risk-taking is a natural part of adolescence, we believe youth need an opportunity to see the consequences of certain behaviors and decisions.

Saturday, Sept. 30, 2017, 2:30–6 p.m.

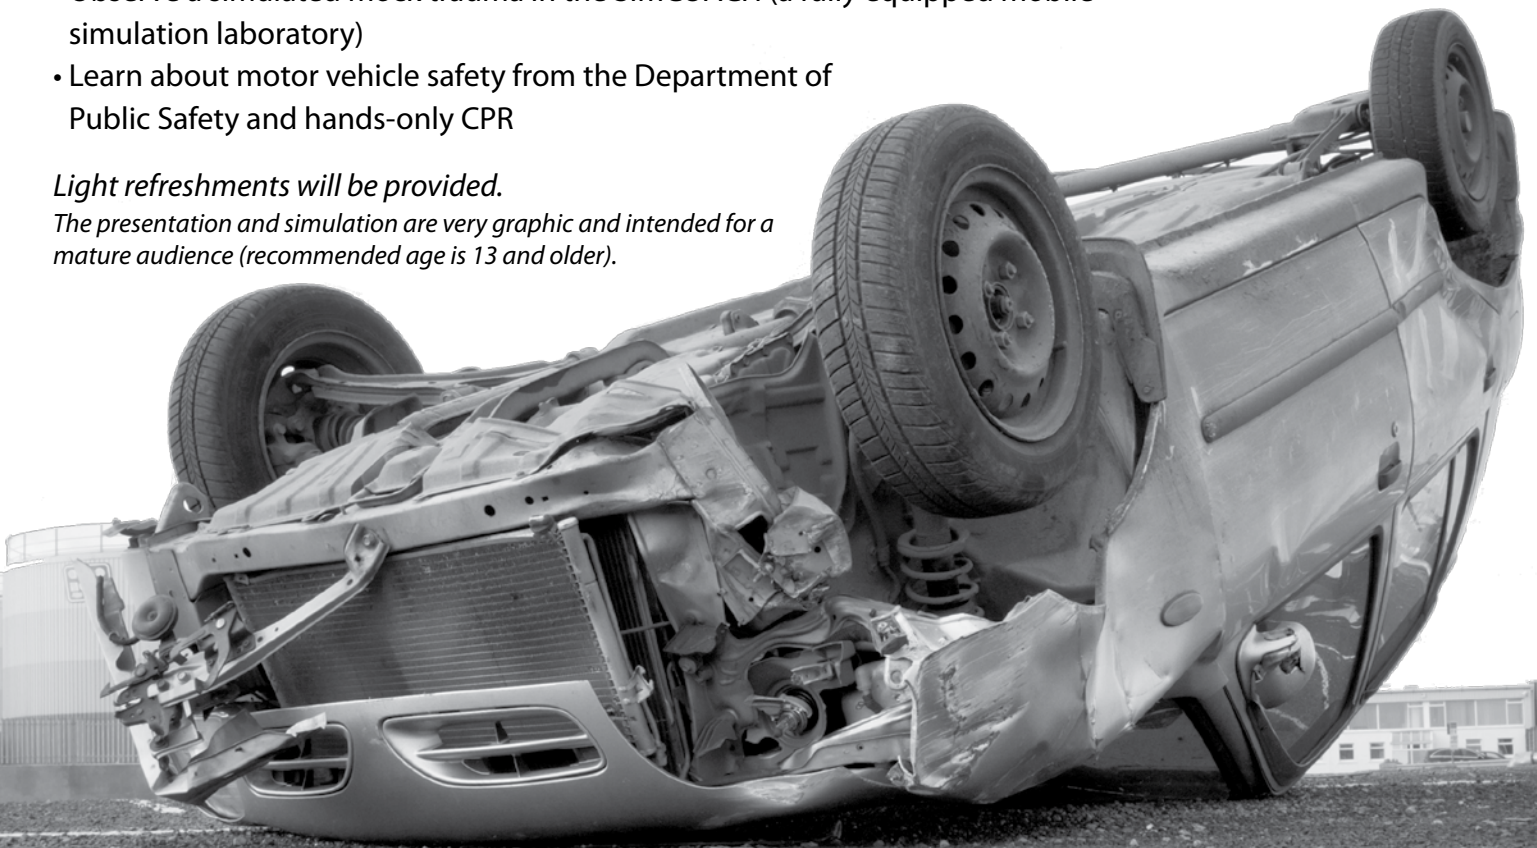

Masjid Muslimiin Islamic Center of Columbia, 1929 Gervais St., Columbia, SC

Project READY is a free community event in which participants will:

- Converse with trauma surgeon Aaron Moore, MD
- Observe a simulated mock trauma in the SimCOACH (a fully equipped mobile simulation laboratory)
- Learn about motor vehicle safety from the Department of Public Safety and hands-only CPR

Light refreshments will be provided.

The presentation and simulation are very graphic and intended for a mature audience (recommended age is 13 and older).

For more information, please contact Nichole Spivey,
Injury Prevention Coordinator, at 803-434-6231 or
Nichole.Spivey@PalmettoHealth.org

Care to be remembered.
